Ideation Phase
Define the Problem Statements

Date	14 October 2026
Team ID	
Project Name	Automated Network Request Management System
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

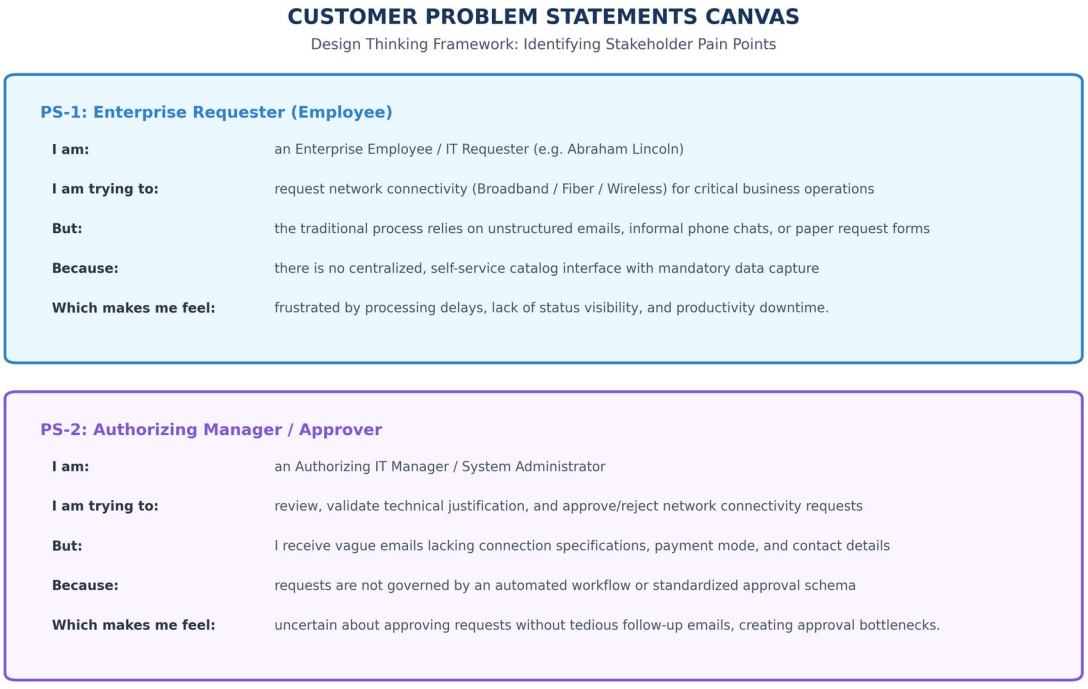

Figure 1.3: Customer Problem Statement Visual Canvas

Problem Statement (PS)	**I am (Customer)**	**I'm trying to**	**But**	**Because**	**Which makes me feel**
PS-1	Enterprise Requester (Abraham Lincoln)	Request network connectivity (Broadband/Fiber /Wireless)	Requests sent via informal emails or paper forms	No centralized self-service catalog with validation	Frustrated by delays and lack of tracking.
PS-2	Authorizing IT Manager	Review and authorize network requests promptly	Emails lack connection specs, amount, or address context	No automated workflow routing or approval schema	Uncertain about approving unvetted expenses.
PS-3	Network ITIL Engineer	Fulfill physical wiring and network activation within SLA	Requests arrive with missing address or wrong contact	Manual data entry lacks validation and task generation	Overwhelmed by rework and missed SLAs.
